

NEXUS STOOL (11102)

Assembly Instructions

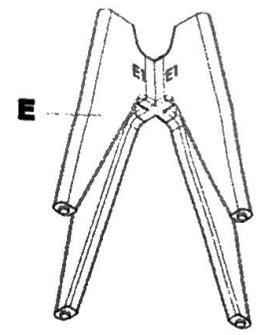

STEP 1

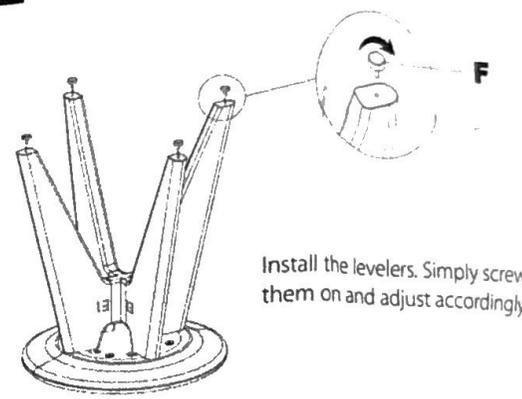

Remove the bolts (D) from the bottom of the seat with the Allen key (C) provided to detach the metal plate from the seat. This will be reattached onto the seat in Step 4.

STEP 2

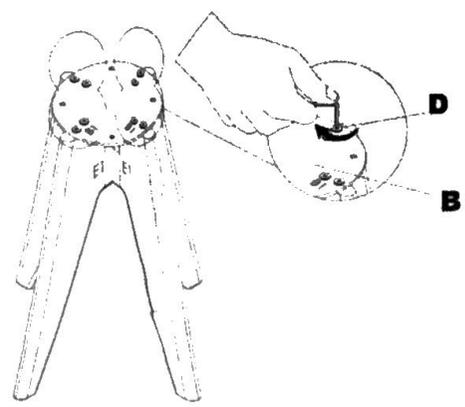

Place the set of legs, one over the other in a criss-cross manner as shown following the matching sticker codes (E1) as shown on the legs.

STEP 5

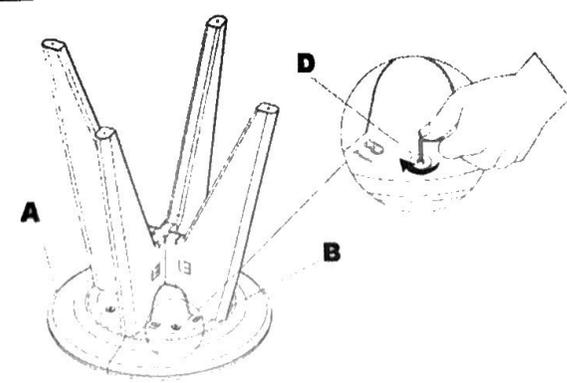

Install the levelers. Simply screw them on and adjust accordingly.

STEP 3

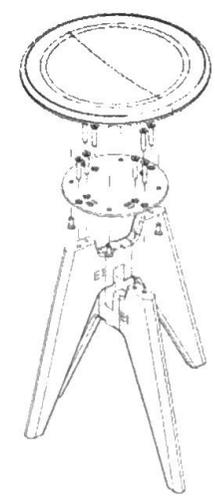

Once the legs are secured, place the metal plate (B) over the top of the legs (as shown) and bolt it down with the 8 bolts (D) provided using the Allen key. Follow labels on plate to match legs.

STEP 4

Complete the stool assembly by bolting the metal plate (B) to the seat (A) using the bolts (D) that were unscrewed in Step 1.
